

# CODE PROJECT: Bots for Good

13-14th April 2023  
@ Newcastle Helix

Ready to code for  
change and build bots  
for good?

Join forces with other young people in  
our holiday hackathon to tackle a  
community challenge - by using robots!

It's completely free to take part and no  
prior tech skills required, just bring your  
passion for making a difference!

Plus, at the end of the hackathon, you  
will get your very own micro:bit device  
to keep!

Sign up now at:
